# Crossword Sudoku

Puzzles of the Month
March 1, 2007

Another Word Sudoku. But, what happened to the starting letters? This is a *Crossword* Sudoku. Solve the crossword clues to reveal the nine, unique letters and to fill in the starting letters.

Each crossword clue has four parts: a number corresponding with a box on the sudoku grid for the word's starting letter, the crossword clue, the number of letters in the word, and the compass direction of the word.

As for any Sudoku puzzle, each letter appears only once per row, column, or 3x3 box. Once you have solved this Crossword Sudoku, submit in the blue row of letters in order from left to right.

Be one of the first three people to submit your solution to info@ pegamoosegames.com with the Subject "Mar1-POTM" for a chance to get your name on the Pegamoose Games Wall of Fame.
